

# Transfer Advising

RVCC students often decide to continue their education after graduation. Any student who desires information about bachelor degree granting colleges can contact an Academic Advisor or Program Director about their options. Representatives from New Hampshire and New England Colleges visit campus each semester to share information about options for transfer students from RVCC. New Hampshire Transfer, [www.nhtransfer.org](http://www.nhtransfer.org) is a program that encourages community college students to continue their education with pathways to easily transfer credits into programs of their choice.
