

Lactation Room

The Claremont and Lebanon campuses are equipped with modern lactation rooms. A hospital grade breast pump is available with kits in Claremont as well as sanitizing equipment, and other devices needed for feeding. The Lebanon Academic Center has a similar set up without a breast pump. Students who need a breast pump in Lebanon may reach out to Valley Regional Hospital or Dartmouth Hitchcock Medical Center to learn about obtaining one. Students in Keene can contact the center director who can arrange a clean, safe place on Keene State's campus. These spaces are available to all students who need to feed, change, or create a quiet environment for their child, not necessarily just for pumping.
